COMPACT YET FULL-FLEDGED

Simple and elegant jade white body
Coupled with an elegant curved design
Occupying only 0.03275m² of space
Compact design for enhanced operational freedom

SMART CONTROL

ONE-CLICK SWITCH AT WILL

Ultra-sensitive waterproof touchscreen
3-mode selection,
10-level power adjustment
Deliver easy and precise operation

ADVANCED US CHIP

Smoother operation, faster response, and more stable output
The powerful core provides great support for clinical practice

TOP-NOTCH HANDPIECE DESIGN

Soft light source for clear and detailed views of the oral cavity
Unique packaging technology allows it to be autoclaved
Maximize the needs of doctors

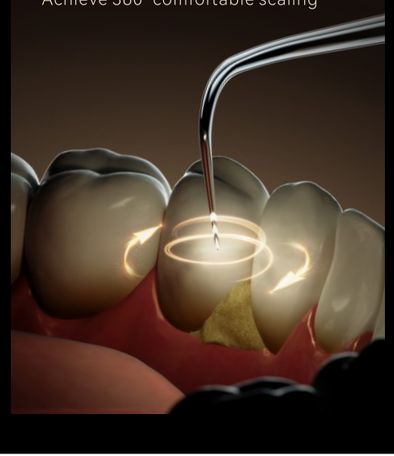

DUAL WATER SUPPLY SYSTEM

Automatic water supply + External water supply
Can hold specific solutions such as distilled water and 5% sodium hypochlorite
Convenient switching provides more choices for treatment

COMFORTABLE SCALING AT YOUR FINGERTIPS

Adopt piezoelectric technology for elliptical motion
Disperse the impact force between the tip and the tooth surface
Achieve 360° comfortable scaling

PERFECT BLEND OF COMFORT AND EFFICIENCY

90μm±50% vibration amplitude combined with broadband design
Compatible with titanium and stainless steel tips

INTELLIGENT POWER FEEDBACK

Automatically compensates power based on different tooth surface conditions Scientific regulation to achieve a consistently stable scaling
